Hi Terri

Thanks for the response. A few more questions:

Originally, the EPA was scheduled to test about 60 homes. Is that still the goal? How many has the agency tested so far? Is the investigation extending outside the Dimock/ Springfield area to other towns or counties? The reason I ask is the DEP recently documented new problems in the Town of Franklin, north of Dimock.

Thanks for the help

Tom

Hi Tom,

I will include you on any notifications/releases of data results. I'm not sure how soon we'll have something. -- Terri

Hi Terri

Trish Taylor referred me to you. Are there any preliminary results or updates of the Dimock investigation, and if so, how can I get access to them? Is not, when do you expect information will be released?

Thanks for your time.

--Hi Tom,

I'm not in the office so I've fwd you email request to our press officer Terri White.

Thx.

Hi again Trish

I know you must be busy, but when you have a moment, hopefully before the week ends, could you please respond to my email (below) or phone message I left earlier this week?

Many thanks
Tom Wilber

Hi Trish

Perhaps you remember me when we met at the Suatner's residence in mid January as I reported on the EPA investigation.

<http://tomwilber.blogspot.com/2012/01/epa-probe-on-dimock-water-begins-with.html>

I'm interested in learning more about the results, which I understand will be released this week. When do you expect that to be released and what will the protocol be? Can you please include me on your media distribution list?

Regards

Tom Wilber
